PUBLIC NOTICE No. F15-3424

The Mississippi Commission on Wildlife, Fisheries and Parks at a meeting in Scooba, Mississippi on March 16, 2010, under authority of Section 25-43-7, Mississippi Code of 1972, made known its intent to adopt the following size and creel limits on sport fish and lake closures/openings. This was done under authority of Sections 49-7-41, 49-7-90 and 49-1-29, Mississippi Code of 1972.

Be it ordered that Public Notices F14-3424, F-3068, F-3703, F2-3795, are hereby amended and the following rules and regulations relative to sport fishing are adopted:

Statewide creel limits on game and sport fish are as follows:

Species	Creel Per Day
Black Bass (combined largemouth, spotted and smallmouth)	10*
Sauger	15
Walleye	3
Striped Bass and Hybrids with 15" minimum size	6 *
Crappie (combined black and white)	30 *
Bream (combined bluegill, redear and other sunfish)	100
Alligator Gar	2
Paddlefish	2 **

* Creel limits for black bass, bream, crappie, striped bass, and striped bass hybrids in waters touched by the state boundary (border waters) shall be that of the adjacent state, or the Mississippi limit, whichever is greater.

** Paddlefish greater than 30" must be immediately released when caught sport fishing in Mississippi. Paddlefish are measured from the front of the eye to the fork of the tail. No paddlefish harvest is allowed in the Tenn-Tom Waterway, Tombigbee River or its tributaries and Pickwick Lake.

Violation of any of the Mississippi state laws or state regulations pertaining to paddlefish will be considered a Class I offense as specified in Section 49-7-90 of the Mississippi State Code of 1972 as amended.

Harvest and possession of all sturgeon species (Alabama, Atlantic, Pallid and Shovelnose) are prohibited in all Mississippi waters.

Be it ordered that the correct method for measuring fish and the definitions for length limits are as follows:

Correct Method for Measuring Fish Length

Fish measurements for length limit regulations shall be taken with the total length being measured using a flatboard with fish mouth closed and tail squeezed together to give the maximum over-all measurement. Paddlefish are measured from the front of the eye to the fork of the tail.

Minimum Length Limit (MLL)

All fish on or less than the regulated size length in inches must be returned to the water immediately after capture and may not be in possession on the designated waters. All fish over the minimum length limit in total length may be kept not to exceed the legal daily creel limit.

Maximum Length Limit (MAXLL)

All fish on or more than the regulated size length in inches must be returned to the water immediately after capture and may not be in possession on the designated waters. All fish under the maximum length limit in total length may be kept not to exceed the legal daily creel limit.

Slot Length Limit (SLL)

All fish on or between the designated range of lengths in inches must be returned to the water immediately upon capture and may not be in possession on designated waters. All fish shorter than the lowest length limit and all fish longer than the highest length limit may be kept not to exceed the legal daily creel limit.

Be it further ordered that all freshwater game fish must remain intact (with head, tail, skin and scales) while fishing lakes or waters having an established MDWFP length/slot limit in Mississippi.

Be it further ordered until such time that it is amended by the Commission, the following length and creel limit regulations shall be in effect for crappie (combined black and white crappie):
